

HIGHWAY TO 2M BOPD

Strategic pillars to reach and sustain our production target

PEOPLE / RESOURCES / PARTNERSHIPS / A STRONGER LIBYA

وزارة النفط والغاز
Ministry of Oil and Gas

TEN LANES. ONE NATIONAL AMBITION.

DESTINATION: 2 MILLION BARRELS OF OIL PER DAY

PACE*		STRATEGIC PILLAR	PRIORITY ACTIONS / ASSETS	INTENDED OUTCOME
160		Brownfield redevelopment	Sarir, Mesla, Amal, Ghani, Defa, Waha. Infill optimization, facility upgrades, debottlenecking and gathering systems.	Reach 2M BOPD. →
140		Greenfield development	Discovered, undeveloped fields: North Gialo 6J, NC-98, I & R, NC-47, Gialo III and NC-31.	Sustain 2M BOPD for longer. →
120		Marginal field redevelopment	Undeveloped discoveries: NC-191, NC-100, NC-101 and NC-59.	Increase reserves replacement (RRR) and sustain the 2M BOPD plateau. →
100		Exploration	Resume IOC exploration; lift force majeure; 22-block bid round.	Add new resources to improve reserves replacement. →
80		Gas	Accelerate gas development: NC-7, NC-54, Atshan and other opportunities.	Meet local demand, eliminate direct liquid-fuel burn for power & maximize GreenStream use. →
80		Midstream	Pipelines, storage, export terminals, compression, metering and transportation infrastructure.	Enable 2M BOPD and increased gas supply and exports. →
80		Downstream	Refining, petrochemicals, LNG, fertilizers and other value-added products.	Meet local demand and develop higher-value products for domestic and export markets. →
60		Renewables	Solar and other renewable energy sources for power generation.	Expand solar power and free up gas for export. →
40		Unconventional	Shale oil and gas; high-pressure / high-temperature opportunities.	Unlock unconventional resources and expand the long-term resource base. →
20		Frontier areas	Kufra.	Open new frontier basins and expand the future resource base. →

*Speed signs express the highway analogy; they are not production volumes, schedules or measured progress.

Strategic vision: targets and initiatives from the supplied Ministry designs. RRR = reserves replacement ratio.

ENERGY TODAY. A BETTER TOMORROW.
